NPTEL Virtual Internship (9months) - Eduskill Foundation

AICTE - virtual internships (9months) - Eduskills Foundation

I have gained valuable hands-on and theoretical experience through a series of remote internships under AICTE. In August to September 2024, I completed the Google Cloud Generative AI internship, where I became proficient in advanced AI tools such as ChatGPT, Gemini, Natural Language Processing (NLP), Artificial Intelligence (AI), and Deep Learning (DL). Prior to that, from April to June 2024, I participated in the Data Analytics Process Automation internship, where I developed skills in data visualization and automation using tools like Power BI and dashboard creation. Additionally, during January to March 2024, I undertook an AI-ML internship, where I strengthened my theoretical understanding of AI and ML algorithms.

Technical Skills

I possess a diverse and well-rounded skill set across technical, software, and interpersonal domains. In database management, I am proficient in MySQL, PL/SQL, T-SQL, and MongoDB. My programming knowledge includes C Language and Core Java, with a strong grasp of object-oriented programming concepts. On the frontend, I have hands-on experience with HTML, CSS, and Bootstrap, enabling me to build responsive and visually appealing interfaces. I am also skilled in data entry, including 10-key typing and search engine optimization (SEO). Additionally, I am comfortable working with a range of application software such as Microsoft Word, PowerPoint, Outlook, as well as design tools like Figma and Canva. Complementing my technical abilities are key soft skills such as organizational behavior, emotional intelligence, and strong listening skills, which support effective teamwork and communication.
